

A Report on

# Schulprojekte Theo Fritsche

Submitted to

Theo Fritsche, Austria

**DATE: 23<sup>rd</sup> April 2014**

**TO: Theo Fritsche, Austria (Schulprojekte Theo Fritsche)**

**PREPARED BY: Nabin Parajuli**

**REVIEWED BY: Sunil Krishna Shrestha (Coordinator Schulprojekte Theo Fritsche for Nepal)**

**SUBJECT: Theo Fritsche supported schools observation report:**

- i) Basuki Secondary School, LakuriVanjyang**
- ii) Jana Bikash Secondary School, Panichaur**
- iii) Ram Devi Secondary School, Harre**
- iv) West wing School, Lubhu, Lalitpur**

## **INTRODUCTION:**

This report is submitted in response of **Sunil Krishna Shrestha** (representative for Schulprojekte Theo Fritsche) requested me to visit the all 4 schools supported by Theo Fritsche. So, on 28<sup>th</sup> February, 2014, I visited the two schools Jana Bikash Secondary School, Panichaur (Schulprojekte II) & Ram Devi Secondary School, Harre (Schulprojekte).

On 21 March 2014 I visited two schools, Basuki Secondary School (Theo school I) and West Wing School (Theo School II) Lubhu Lalitpur.

## **DISCUSSION:**

### **1. Basuki Secondary School ( Schulprojekte I)**

**Person met:** Headmaster, Teachers & Students

**Total no. of Students:** 326

**Support provided by Theo Fritsche:**

- 1) Main School Building

2) Desk Bench & office furniture in few class rooms & office room

**Find in observation:**

School building is in good condition. The principal shared that this school is very popular in this area and helping for needy children. It is known as Theo Fritsche School rather than its own name Basuki School.

## 2. Jana Bikash Secondary School ( Schulprojekte II)

**Person met:** Headmaster Shankar Prasad Parajuli, Teachers & Students

**Total no. of Students:** 258

**Support provided by Theo Fritsche:**

- 3) Main School Building
- 4) Photo Voltaic for alternative energy (Solar)
- 5) Desk Bench in few class rooms
- 6) Rain Water Harvest System

**Find in observation:**

School building is maintained in regular interval of time and is in good condition. Garden is maintained and many new plants and flower are planted in school compound. Photo voltaic (Solar) performing good function. Solar energy is used for all computers. Collected rain water is in good condition and used by students and teacher for bathroom purpose.

Science laboratory and Library is in the same room. So it will better for students either it can be conducted in different room or the room should be partitioned. The headmaster said that there is no room for students who have chosen the optional subject. So, it will be good for students if it is possible to add more rooms.

### 3. Ram Devi Secondary School, Harre. (Schulprojekte III)

**Person met:** Headmaster Keshab Lal Shrestha, Teachers and students

**Total no. of Students:** 370

**Support provided by Theo Fritsche:**

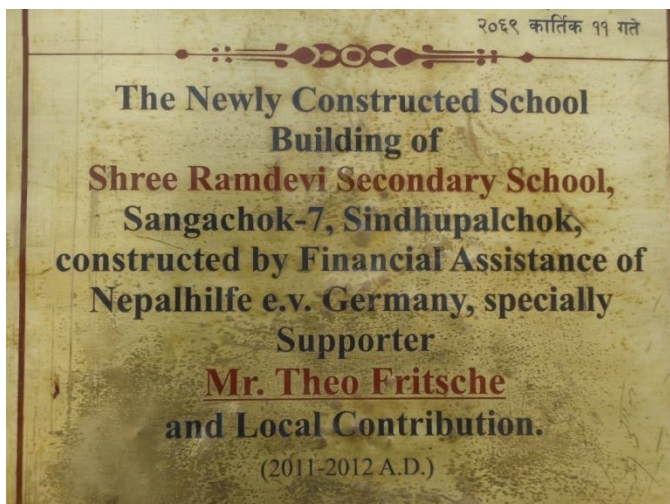

- 1) School Building with 12 Classroom
- 2) 7 new desktop computer sets
- 3) Rain Water Harvest

**Find in observation:**

School building is maintained as per as required. All desktop computer sets are in good condition and used for students from grade 6. Computer room is well maintained and very clean than before. Seasonal rain water is collected for sanitation, washing and bathroom purpose. ECD class is shifted from old classroom shade to new building.

Computer lab and library is in same room but separated by wooden (Ply-wood) partition. Also, grade 3 & grade 4 classrooms are in same room separated by wooden partition.

## 4. Westwing School

**Person met:** School in charge Babu Kaji Maharjan, teachers and students

**Support provided by Theo Fritsche:**

- i) Extension of School Building
- ii) Computer set (on going)

### **Find in observation:**

School building is in good condition. The school team is very happy with the support from Theo. They are planning to run computer class from grade 6 with new set of computer supported by Theo which is ongoing project for Westwing School.
